**Re: Request for Approval to Inject Fresh Water for a Limited Time Period**

Dear Mr. Athans:

The United States Environmental Protection Agency (EPA) is in receipt of your letter dated July 16, 2013 requesting EPA's approval to inject fresh water for a limited time period. EPA approves the injection of fresh potable water for the limited purpose of checking the operation of the well injection equipment and monitors, calibration of all well monitoring equipment, and to demonstrate the operation of the well monitors to EPA inspectors. The approval to inject fresh potable water is for the time period beginning August 5, 2013 and concluding August 8, 2013. EPA will be on-site on August 8, 2013 to inspect the operation of the well monitoring equipment.

If you have any question regarding this matter, please call me at (312) 353-7316.

Sincerely yours,

A handwritten signature in blue ink, reading "Allan Batka", is positioned above the typed name.

Allan Batka, Engineer  
Underground Injection Control Branch
